**meridianEMR Reaches 1,000 Urology Providers and
Celebrates the Best Sales Month in Company History**

meridianEMR Inc. announced today that it passed the milestone of 1,000 Urology providers who have purchased the company's market-leading, ONC-ATCB 2011/2012 and CCHIT® certified, Urology-specific EHR. The 1000th client was from Urology San Antonio, a thriving practice of 28 Urology providers.

With the most successful sales month in meridianEMR's history, the company added 85 new Urology providers in December 2010. These sales were due, in part, to an unprecedented meridianEMR Doc Fix campaign, which offered a 21.9% reduction on all new meridianEMR Urology system orders. The campaign was a vehicle to provide relief from Medicare Fix uncertainty and partner with prospective clients during difficult economic times.

"The milestone of reaching 1,000 Urology providers is significant because our strong and rapidly growing customer base reflects our ability to deliver the type of EHR products and services that Urologists need in order to make their practices more efficient and patient care more effective. We are excited about this accomplishment and thank all our clients for letting us be part of their success. We look forward to exceeding client expectations in 2011 with even more value and opportunity," commented Michael Custode, CEO, meridianEMR.

About meridianEMR

meridianEMR offers an interoperable EHR solution compatible with physician practice management systems and advanced healthcare analytics. The meridianEMR, Inc. application is ONC-ATCB certified as a complete EHR, CCHIT certified until 2014, and Surescripts certified. The interoperability of the meridianEMR software is driven by the proprietary mXchange™ technology, which services all meridianEMR clients through a private, highly secure, real-time data exchange network. meridianEMR
