Dear Valued Clients:

meridianEMR is proud to announce that we are in the process of being acquired by HealthTronics, Inc., a subsidiary of Endo Pharmaceuticals Holdings, Inc., a diversified healthcare company with nearly \$3 billion in sales on a pro forma basis over the past twelve months. This strategic investment was announced on October 27, 2011 in Endo Pharmaceutical's earnings call and related press release.

We are excited about this new direction for many reasons, chief among them are:

1. Endo is building a comprehensive and diversified business for Urology with the recent acquisitions of HealthTronics and American Medical Systems.
2. Endo recognizes the importance of information technology and data in delivering healthcare. This is aligned with our mission and purpose.
3. Endo through its HealthTronics subsidiary also recently acquired Intuitive Medical Software, makers of UroChart EHR. While we have competed with UroChart in the past, we believe that bringing together the best, urology focused EMR's will create many opportunities to produce tools and capabilities for the Urology community to fill un-met technology needs.
4. HealthTronics plans to invest in building health information technology solutions that serve the Urology community. HealthTronics has an ability to provide resources that are beyond what we have had available in the past, which will allow us to better serve you in the short and long term.
5. Management and key employees of meridianEMR will be part of the HealthTronics IT Solutions team for continuity of support and development of your chosen EMR tool.

The meridianEMR team is excited to become part of a diversified healthcare company that can deliver an innovative suite of complementary products and services to meet the needs of patients in areas such as urology. We plan to bring you, our valued clients, significant product enhancements, improved services, and more opportunities than ever before. We will be planning integration efforts over the next few months, and will keep you up to date on developments that may be of interest to you.

If you have any questions, do not hesitate to call or email us. We will post FAQs on our web site in the near future to answer many of your anticipated questions. We will also continue to communicate our plans to you as they unfold.

Thank you for being an integral part of our growth and success. We look forward to continuing our strong client relationships as part of the Endo/HealthTronics/AMS team.

Your meridianEMR team
