

FOR IMMEDIATE RELEASE - meridianEMR, an Electronic Medical Records Company, Increases Revenue 366%

Ranked by Inc. Magazine as One of the Fastest-Growing Private Companies in the Country

Livingston, NJ – August 25, 2009 – meridianEMR, Inc., a leading provider of electronic medical records systems, electronic prescribing and advanced healthcare analytics, announced today that Inc. Magazine ranked the company No. 801 in its annual ranking of the 5,000 fastest-growing private companies in the country. meridianEMR is also ranked No. 62 out of over 300 health industry companies nationwide and No. 59 in its geographic area. The Inc. 5000 list presents the most comprehensive look at America's most successful, entrepreneurial businesses.

"We are very proud to be part of a small group of EMR companies that have achieved an Inc. 5000 ranking. Our singular focus to deliver an outstanding product and personal customer service is making a measurable, positive difference not only for the providers, but also end-users," stated Michael Custode, Chief Executive Officer of meridianEMR, Inc. "In a health care industry that's rapidly changing, we will continue to provide our valued customers with a proven, flexible application that's designed to meet their needs today and evolve to address the changes in health care policies, requirements, incentives and standards of tomorrow."

The Inc. 5000 is compiled according to percentage revenue growth from 2005 through 2008. To qualify, companies must be based in the U.S., privately held, for profit, and independent with 2005 revenue totaling at least \$200,000 and 2008 revenue totaling at least \$2 million. Over the evaluation period, meridianEMR achieved a revenue growth rate of 366%. meridianEMR has continued its growth in 2009 with substantial infrastructure investments to support operations and over 50% in additional staffing to date, which is expected to be over 100% by year end. The continued investment and controlled company growth is to support timely installations and ongoing client service due to increases in new client orders.

As a private, majority employee owned company, meridianEMR serves over 800 providers and over 4300 users in the healthcare industry nationwide. Since the company's inception, meridianEMR has focused primarily on the Urology specialty, which has enabled the company to capture the largest market share in the specialty by a substantial margin. meridianEMR is also rolling out a General Surgery specific application with additional specialties currently in development as well.
